HSC60

MULTI PURPOSE PATROL BOAT

The HSC60 is a multi-purpose patrol boat designed as a high-speed catamaran, with good stability, quick access side opening doors, operating in coastal areas and around islands.

The boat is designed to transport up to 23 people (including crew) to carry out required missions.

The boat can operate in shallow water, however, with a wave-cutting bow and a 2-hull design, ensuring the boat operates at high speed with little impact from waves.

The hull is made of fiberglass reinforced with layers of carbon fiber fabric, aramid and uses waterproof Divinycell foam core material. The boat is manufactured using Sandwich infusion vacuum technology, ensuring stability and uniformity of the plastic as well as eliminating air bubbles when hardening;

The hull is sturdy, light weight, well-designed, durable, impact-resistant, and abrasion-resistant. The reinforced bottom of the boat ensures that it is difficult to puncture even when colliding or sliding on coral.

MULTI PURPOSE PATROL BOAT

SPECIFICATIONS

- Overall length	Lmax	±17,60 m
- Maximum width	Bmax	± 5.30 m
- Depth	D	± 2,25 m
- Draft	d	± 0,82 m
- Engine	FPT - Italia	C16
- Propulsion	France Helices/Top System	
- Engine	Ne	2 x 1000 HP
- Max speed		± 45 knots
- Cruising speed		25 - 30 knots

- Fuel capacity	2x900 liters
- Fresh water	2x300 liters
- Displacement	18 tons
- People carried (with seat)	19 people
- Crew	03 people
- Max speed operating range	100 knots
- Economic operating range	150 knots
- Resistance level:	Wave level 3, wind level 4

** Boat can be equipped with 12.7mm gun carriage, local bulletproof plates upon request.*
